

8:00	Registration & coffee					
9:00	Welcome					
	STORY					
	The influence of BAMB in shaping circularity in the construction industry					
	Keynote speaker(s)					
	HOW!					
	The BAMB tools and findings lay the foundation for a pathway towards a circular future. Pitching session to pick and choose the results you wish to explore further.					
	<ul style="list-style-type: none"> • Circular Building Assessment- supporting resource effective decision making and circularity in the building process • Materials Passports - making data on materials value for recovery and reuse available • Reversible Building Design Tools – enabling resource efficient repair, recovery, and reuse of building products, materials and components through the Reuse Potential Tool, the Transformation Capacity Tool, the Virtual Simulator and the Design Protocol • The Business Case – establishing the business case for circularity in the built environment • Policy Recommendations – supporting the sector through policy in order to make circularity business as usual • Pilot Projects – demonstrating the viability of Building as Material Banks 					
10:30	Coffee Break					
	Parallel sessions – PART I					
	Explore the BAMB tools and results for your business and industry					
	Session 1	Session 2	Session 3	Session 4	Session 5	Session 6
	Circular Building Assessment	Materials Passports	Reversible Building Design Tools	The Business Case	Policy Recommendations	Pilot Projects
12:30	Lunch					
	Parallel sessions – PART II					
	Explore the BAMB tools and results for your business and industry					
	Session 1	Session 2	Session 3	Session 4	Session 5	Session 6
	Circular Building Assessment	Materials Passports	Reversible Building Design Tools	The Business Case	Policy Recommendations	Pilot Projects
15:00	Coffee Break					
	The voice of the Industry: panel					
	An opportunity to hear from actors of the building sector and provide feedback on the BAMB results presented in the parallel sessions.					
	Where do we go from here?					
	The BAMB vision for a circular future					
	Closing
